

# The Environmental Challenge Program

*...a competition for university students*

University students, can you solve...

## The Environmental Challenge

November 8-10, 2006 - Victoria, B.C.

*"Healthy Communities - Using Science-Based Solutions for Sustainability"*

### OPPORTUNITIES & REWARDS

- Win cash prizes; \$4000 USD will be given away on November 10 to Environmental Challenge Teams
- Be recognized and rewarded at the conference Awards Luncheon
- Network with hundreds of environmental professionals
- Enjoy excellent presentations and other festivities
- Visit local attractions in beautiful downtown Victoria, British Columbia.
- Have a lot of FUN!

### THE CHALLENGE

Environmental Challenge teams from northwest universities develop a solution to a real-world environmental problem, develop and submit a short proposal during the Fall term and present your findings at the end of the conference.

During the conference your team will be given a "twist" with emerging issues to resolve while at the conference. With the "twist", clues from role-playing conference delegates, your team must develop a presentation to solve the Environmental Challenge. Judging and awards will be based on the team proposals and presentations.

### HOW YOU CAN PARTICIPATE

Mark your calendar and register for the PNWIS 2006 Conference. Build a team(s) to 3-5 knowledgeable students; develop a preliminary proposal and presentation in the month prior to the conference.
